

Today's Plumbing and HVAC Careers

The demand for workers will surprise you.

Across the U.S., there is a steadily increasing need for plumbers and HVAC technicians.

The projected shortage of workers in the plumbing-heating-cooling industry is staggering. By 2022, the U.S. Bureau of Labor Statistics estimates that the industry will need approximately 138,200 new workers.

From a broader perspective, over the next 10 years, 95 million Baby Boomers will retire from their jobs across all industry sectors, but only 40 million young workers will be available to replace them.

Plumbing and HVAC Careers: The Facts Will Surprise You!

High Salaries – Average technician salaries are more than \$49,000 plus benefits.

High Demand – More than 138,000 mechanics and installers will be needed by 2022.

Opportunities for Women – Growth of women in the industry is on the rise.

Cutting-Edge Skill Sets – Today's jobs are highly technical and require a variety of skills such as analyzing and problem solving.

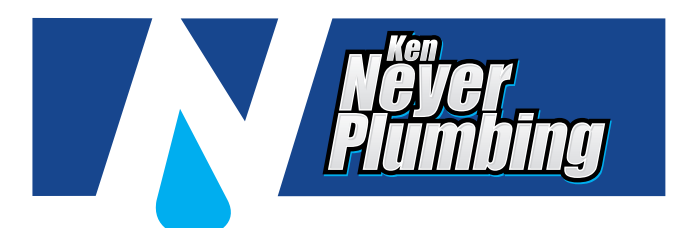

Multiple Career Advancement Paths – Career opportunities range from technicians to tech-savvy CAD and BIM operators to management.
